Gen. Pershing Hopes to Convince Gavira Cooperation Is Needed.

WOULD SOON CLEAN UP BANDITS IN MEXICO

WASHINGTON, May 27 .- Gen. Funston has advised the War Department that he approved the suggestion of Gen. Pershing for a conference between the latter and Gen. Gavira, commanding the Carranza roops along the border, with the express provise that the conference would not lecuse in any way the question of a withdrawal of the American expedition

expressed confidence that he would be ble to convince the Carranza commander that by closer cooperation between the forces of the two Governments the work of cleaning up the bandits could be quickly accomplished. He added that natives with whom the American expedition has come in contact

were generally friendly and opposed to any thought of hostilities with the U. S. CITIZENS IN United States. Inquiries to-day as to the steps taken

by the State Department to meet the publicly proclaimed threat of Zapata to attack all railway trains with a view to slaughtering travelling Americans and other foreigners, elicited the information that for some time past the department has been refusing to issue passports to Americans applying for transportation to interior points in Mexico, including Mexico city.

The result was that they were practically wiped out as a political party, carrying only seven out of a total of eighty-two constituencies. The Nationalist followers of Bourassa united forces with the Liberals, the active support of the Roman Catholic hierarchy was enlisted, and the province declared almost solidly on the side of the French in Ontario, who maintain that their rights and liberties are being restricted. The inevitable consequence has been to fan the dving embers of French and English racialism into a flerce flame.
